

A Report on the World Logic Day Event in Taiwan – Teaching and Study in Logic under the Pandemic

Our discussions go to each speakers' personal experience in studying and teaching logic either in Taiwan or around the world. Jui-Lin Lee kicked off this event by introducing the famous ILLC curriculum. In Chun-Yu Lin's talk *Logic Conference Format Under COVID-19*, the pros and cons of attending on-line conferences were analyzed. Chi-Her Yang shared his teaching experience in general education courses about logic and philosophy. Some audiences share their experiences of taking courses about logic and philosophy in Taiwan. Tzu-Keng Fu concluded and introduced what he aims to achieve in the scholarship of teaching and learning about logic in Taiwan (SoTL Logic). Moreover, he suggested that a SoTL Logic workshop can be organized regularly in the future.
